

U. S. Makes Comparison

As compared with other food products, selected for illustration by U. S. Department of Labor, a table given in the report shows sugar has contributed less to the high cost of living than eight other food products, the prices of which show the least increase of all commodities which are now helping to swell the average food bill.

EXTRA FINE Table and Preserving Sugar ABSOLUTELY PURE

It is interesting to note the department shows that onions increased 77 per cent, potatoes 30 per cent, and that other articles, such as lard, butter, flour, cheese, corn meal and navy beans have jumped to abnormal levels.

Sugar is one of our cheapest and best foods.

28th, at the home of the bride's par-
ents, Bishop and Mrs. Frank Barney.
A nice church was rented and music
readings and games were indulged in
until a late hour. Those present were

The relief society at Emery has
been given the use of an acre of good
land. The members of the society do-
nated enough potatoes to plant three-
fourths of an acre, and with the volun-
tary service of a couple of teams
and a few men, the potatoes are
planted and the remainder of the
land prepared to plant in beans. A
number of ladies have volunteered
their services and within a few days
expect to have the beans planted also.

Emery's Honey Crop.

Emery county's 1917 honey crop is
expected to bring at least ten cents
per pound, and the disbursement of
the Emery County Beekeepers' associ-
ation at a meeting last Monday an-
nounced the secretary of the associ-
ation, Peter Nelson of Huntington, to
contract the crop at not less than this
figure. Some other matters of busi-
ness were attended to, among which
was the buying of bees for this year's
crop. The bees will cost forty cents
each, and as against a price of
twenty cents each, not a long
gain, and they are hard to secure at
this time. The next meeting of the
association will be in the form of a
field meeting at Huntington on July
1th.

Sunday, May 28th, was observed in
Emery as Mothers' Day. The Sunday
school gave the program as outlined
in the Juvenile Instructor during the
forenoon, presenting some twenty
mothers with carnations. Immedi-
ately after the close of the school a
picture was taken of all present. The
afternoon service was conducted un-
der the auspices of the relief society.

The county commissioners met on
a board of equalization the first three
days of the week. The meeting was
not given the wide publicity that has
been the rule in the past, with the re-
sult that some taxpayers are under-
stood to have overlooked the meeting
though the assessment notice states
the time of meeting as a board of
equalization.

Indian Fighter Passes.

Word of the death of Andrew C.
Van Buren, of Orangeville, saddened
the hearts of many friends through-
out the county this week. This fine
pioneer and Indian fighter num-
bering his friends by the host in the
whole section. Death came after a
lingering illness. Funeral services
were held yesterday in Orangeville,
attended by a packed house of sor-
rowing relatives and friends. Elders
O. J. Anderson of Castle Dale and J.
Frank Kilian of Orangeville and
Bishop Reid made comforting remarks
and the musical part of the services
was wonderful as usual in this ward
of notable talent. Mr. and Mrs. Van
Buren celebrated their golden wed-
ding last winter and the affair was
one that will long be remembered by
those who were present.

State Road Work.

The construction of the Orangeville
and Ephraim state and federal road
connecting Emery and Sanpete coun-
ties will be proceeded with after some
delay caused by the hesitancy of the
Sanpete commissioners in the matter
of co-operating with the state and
federal authorities. C. E. Larson wired
the good news home last Sunday af-
ter spending two days of hard work
getting the favorable action. It was
finally necessary for Larson and Ma-
jor Chris Willardson of Ephraim to
personally pledge a thousand dollars
until taxes come in to make up the
amount asked to insure the road. Ac-
tive work on the project will begin
in earnest as soon as the equipment
can be gathered together and shipped
here. The action of the Sanpete
commissioners insures the spending
of twenty-five thousand dollars on the
Emery and Sanpete road project for
completion this year.

ADVERTISING MANAGER LETS "THE CAT OUT OF THE BAG"

Herman Linenthal, adver-
tising manager for Sears, Roebuck
& Co., of Chicago, recently told
the members of the American
Advertising club, one of the
methods by which that company
extended its trade. He said:
"We have a bureau whose
duty it is to reach every week
the country newspapers from all
over the country. There is not
a paper of any consequence in
our trade territory that our bu-
reau does not get."
"This bureau looks these pa-
pers over, and when we find a
town where the merchants are
not advertising in the local pa-
per, we immediately flood that
territory with our literature."
"It always brings results far
in excess of the same effort put
forth in territory where the lo-
cal merchants all the time use
their local paper."
"Shall I teach you to make dough-
nuts?" asked grandma.
"Yes, I am very much interested.
I don't understand how you arrange
the inner tubes."
"Have you heard a moth ball?
No, but I have seen a tennis shark."

UTAH IS TO SAVE HUGE SUMS OF MONEY BY REASON OF THE WAR

As a result of the war with Germany, Utah has decided to save
nearly two millions of dollars. The big road bond issue authorized
by the last legislature will not be sold, state officials believing it
is no time for an immense outlay on home improvements when the
fate of the nation is hanging in the balance. As it will be neces-
sary to find two hundred thousand dollars somewhere to keep the
roads of the state in a fair condition during the biennium, and the
motor vehicle fund no longer applies for such purposes, the form
of a sale of about two hundred thousand dollars worth of the road
bond issue will be gone through. The state will get the money it
needs to keep the ruts out of the highways, but will be very little,
if any, out of pocket.

The state land board will just say, "Here, I'll take that two
hundred thousand dollars worth of bonds. I have money to spare."
The road fund will be replete, the land board will be getting 6 per
cent instead of 2 per cent on its money, and the state as a whole
will not owe a cent. It will be taking money from Peter to pay
Paul, but in this case Peter and Paul are brothers and the money
will stay in the family. In the preparation of road plans this year
only such improvements are being considered as will facilitate
getting produce from agricultural sections that hitherto have had
no good outlet, as in the case of the Uintah Basin. Many such
roads will be built, despite the laying on the shelf of the road bond
issue. Between federal appropriations, county appropriations and
the regular state allowance, the funds will be ample to construct
every highway essential to efficient food supply service during
the war.

It is now contended that the state must be a better business
man than it has been in the past, and that the last board has for
some time had a million dollars lying idle that might as well have
been drawing 6 per cent. Efforts are being made to place the
money, largely through loans to farmers.

MAKING TERMS.

will you be mine? You shall not
wash the dishes nor put food on

except seeing the fine man. Upon

consider your proposal.

Trading business in seeds was con-
ducted by J. Edward Taylor, execu-
tive secretary of the seed committee
of the state council of defense, last
Monday, he having sold 12,200 pounds
of seed potatoes, one hundred and
sixty-five pounds of seed beans and
three hundred pounds of seed corn,
in addition to having filled a number
of smaller orders. The farmers and
others who wish to plant realize that
they have but a very limited time in
which to get their seed and they are
ground. Taylor said, "and they are
making a drive on the seed market."
